From goat's milk

Frequent bathing can be hard on your dog's coat and skin unless you use the right shampoo. Canus Goat's Milk has introduced three new shampoos to its Nature's Dog by Canus line. These gentle but sudsy goat's milk-based products are phosphate free and specially pH balanced for a dog's skin. They're also biodegradable. The formulas include Oatmeal Shampoo (for dry, itchy skin), Puppy Shampoo and Moisturizing Shampoo. 16 oz bottle: \$11.99 canusgoatsmilk.com
