WATERBURY, Vt. – [Canus Goat's Milk Skin Care](#) released Nature by Canus, a new skin line of fresh goat's milk products that uses organic ingredients whenever possible to promote smooth, healthy complexions. Each Nature by Canus hypo-allergenic formula relies on the properties of exotic botanicals with hydrating capabilities to help keep skin healthy. The Moisturizing Clay Mask is a blend of clay minerals, including kaolin and certified organic ingredients like shea butter, Aloe and jojoba oils. The Hydrating Face Scrub is infused with organic acai powder, organic jojoba oils and castor beans. The Firming Eye Cream includes ingredients from the tiger nut plant along with cupuacu and muru-muru butters. The Daily Facial Cream contains cupuacu and muru-muru butter, organic jojoba oil and shea butter.

Like other Canus products, the Nature by Canus line is all-natural and made with fresh goat's milk packed with naturally rich proteins, vitamins and minerals that are non-irritating to sensitive skin. Fresh goat's milk contains capric and caprylic acids to help maintain a product alkalinity level close to that of human skin. This keeps skin from being stripped of its natural moisture and protective properties. Canus products are gluten-free and free of parabens, phosphates and phthalates.
